the MIGHTY
CHRYSLER

for 1957

The Most Glamorous Car in a Generation!

The new, low priced Windsor — the Saratoga — and the famous New Yorker — the three great Models of the Mighty Chrysler Line for 1957! Beautifully and smartly designed, they radiate, in every line, their Styling Leadership over all other cars. They are the most sensationally beautiful cars Chrysler has ever built. Likewise, they are the finest Chrysler has ever built, with more outstanding engineering and performance features than ever before.

Inspect them carefully. Compare them with other cars. Drive them. And you will find that no other car has the fine engineering — the unexcelled performance — the low maintenance cost — and the invaluable joy and pride of ownership you will get from *your Chrysler!*
