The World

23a Chrysler 300C
Class: The 30s American Convertible
Year of manufacture: 1957
Chassis: Chrysler Corporation, Detroit, MI USA
Coachwork: in steel
Entered by: Arne Nilsson (Sweden)
High level car, Chrysler's response to GM's Impala. The 300C and its sister 300, was the top of its class. The body built with 28kg engine. The door very smooth. The body work and interior is superb. The car is a masterpiece of the 50s, which is why it's a real gem. The car is a real gem and a testament to 1950s. Please do not touch the car.
